REPORT

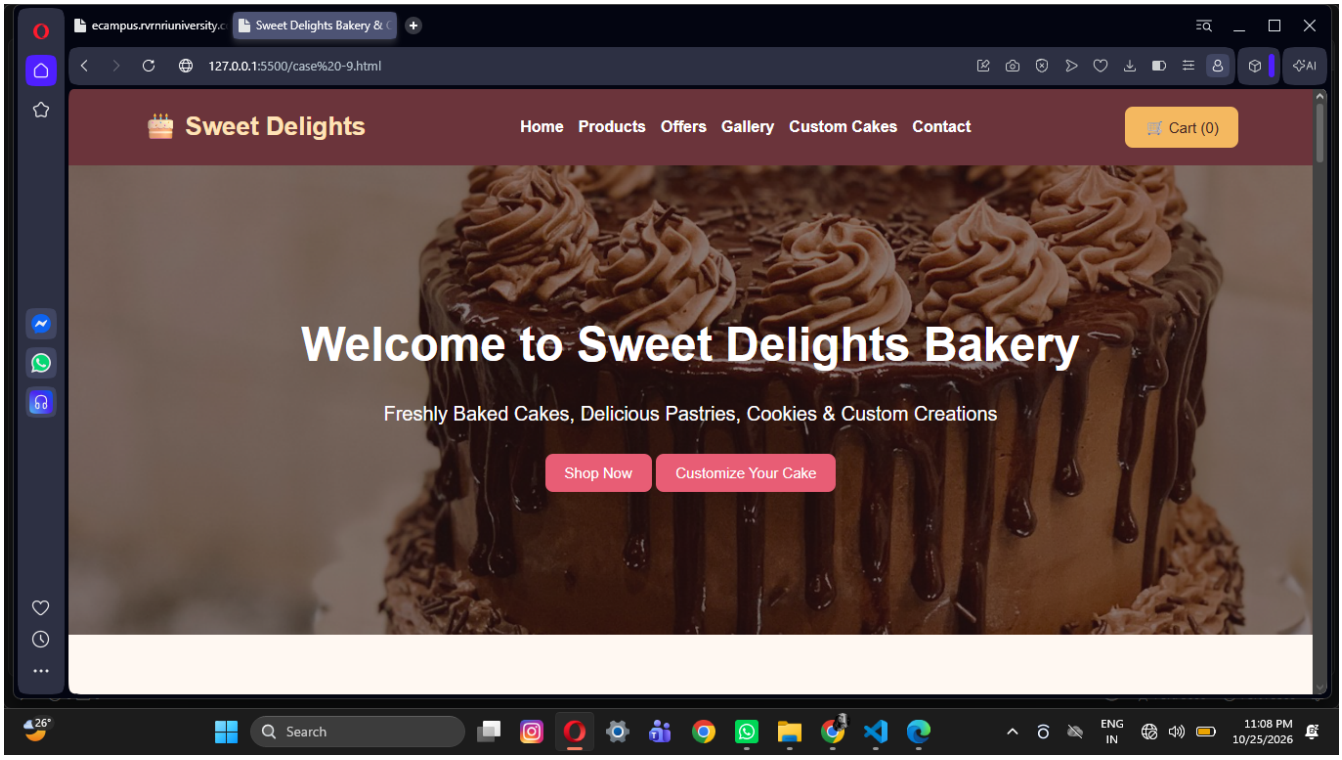

Consolidated Website Project Screenshots

This report documents three demonstration web projects: Sweet Delights Bakery, PowerFit Fitness Center, and TravelEase Bus & Train Booking. The screenshots show their layouts, features, and user-interface elements.

Sweet Delights Bakery Website

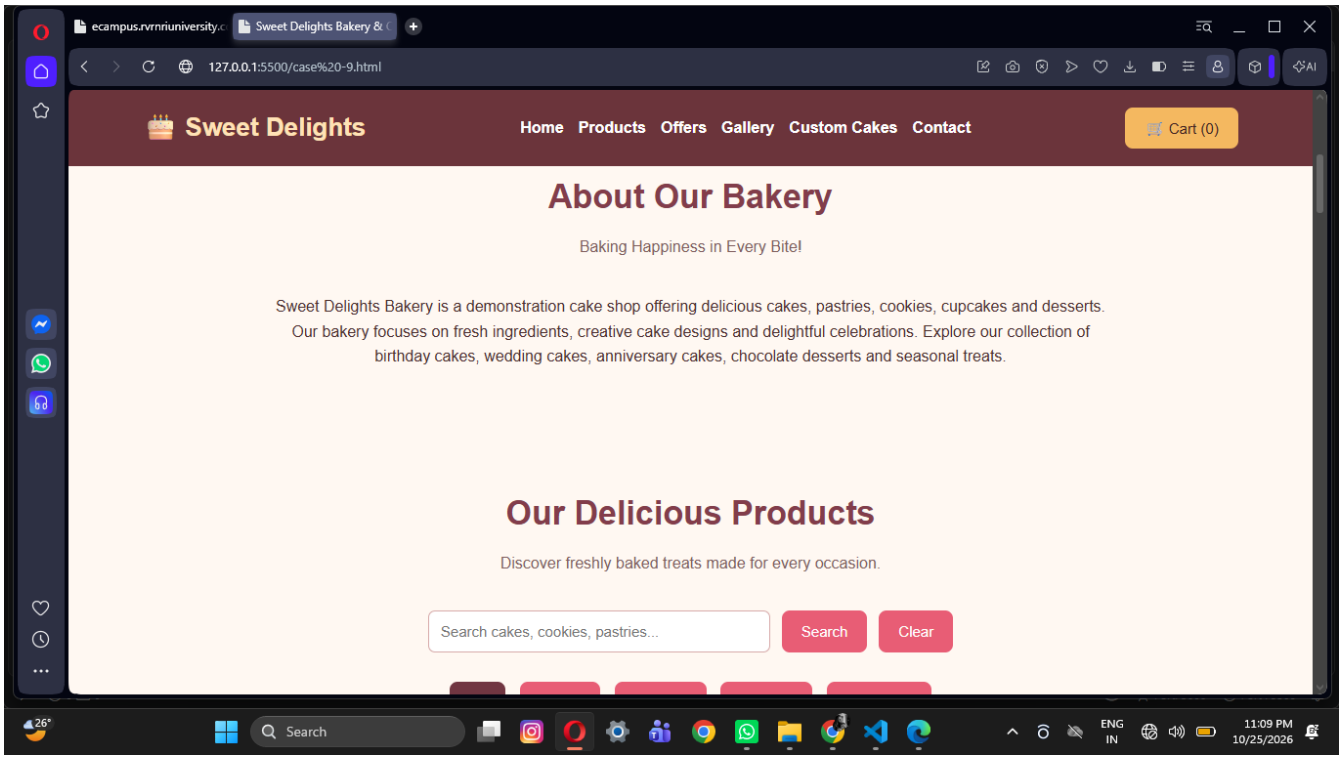

Homepage

The bakery homepage features a cake banner, navigation menu, shopping cart, and quick links to products and custom orders.

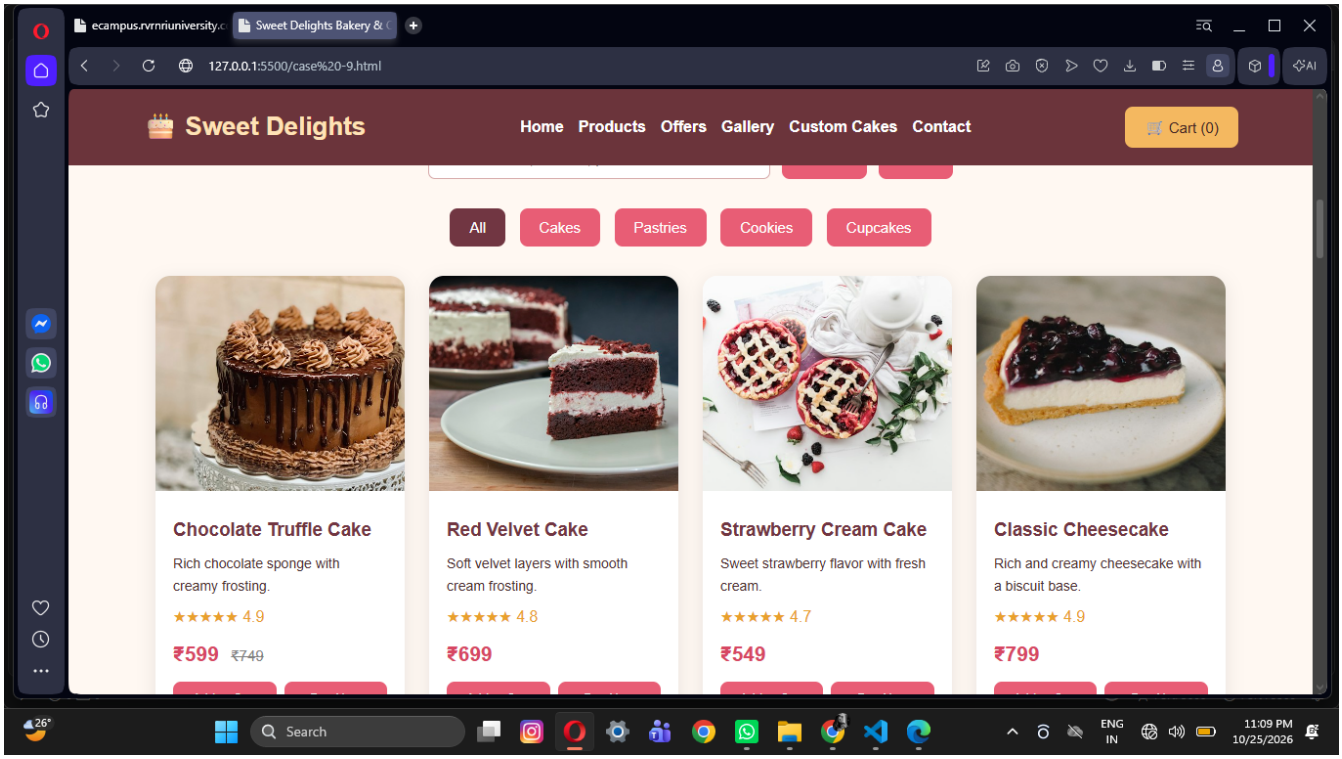

About and product search

Introduces the bakery and includes product search and browsing tools.

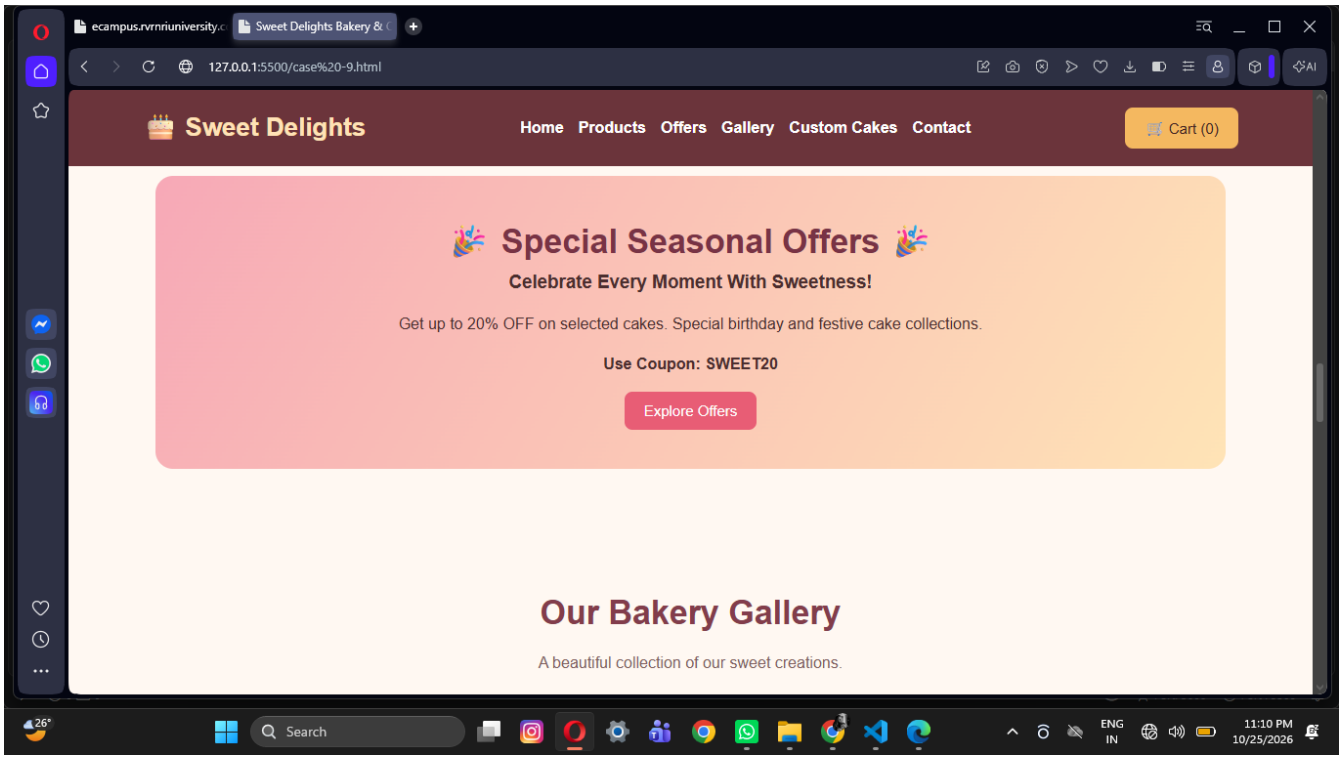

Product catalog

Displays cakes with images, descriptions, customer ratings, prices, and shopping controls.

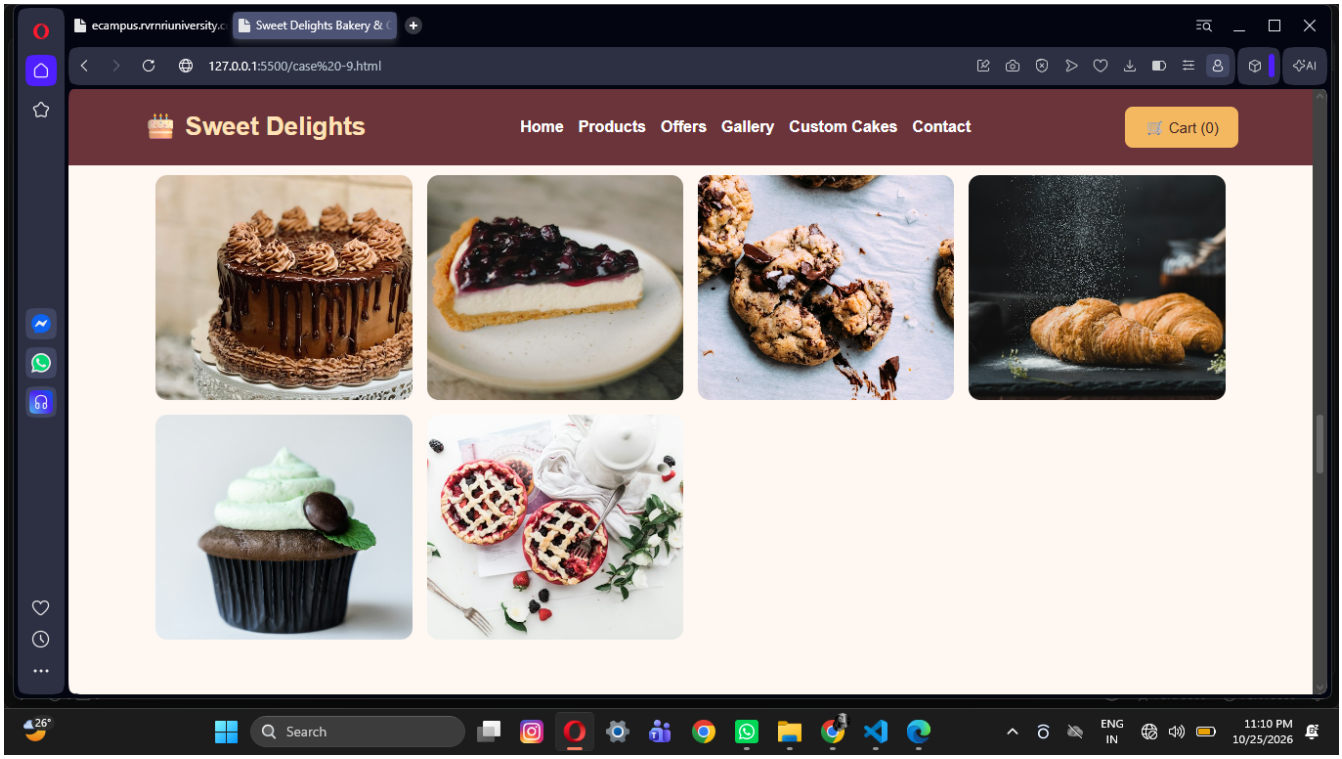

Seasonal offers

Highlights promotional discounts and a coupon code for selected cakes.

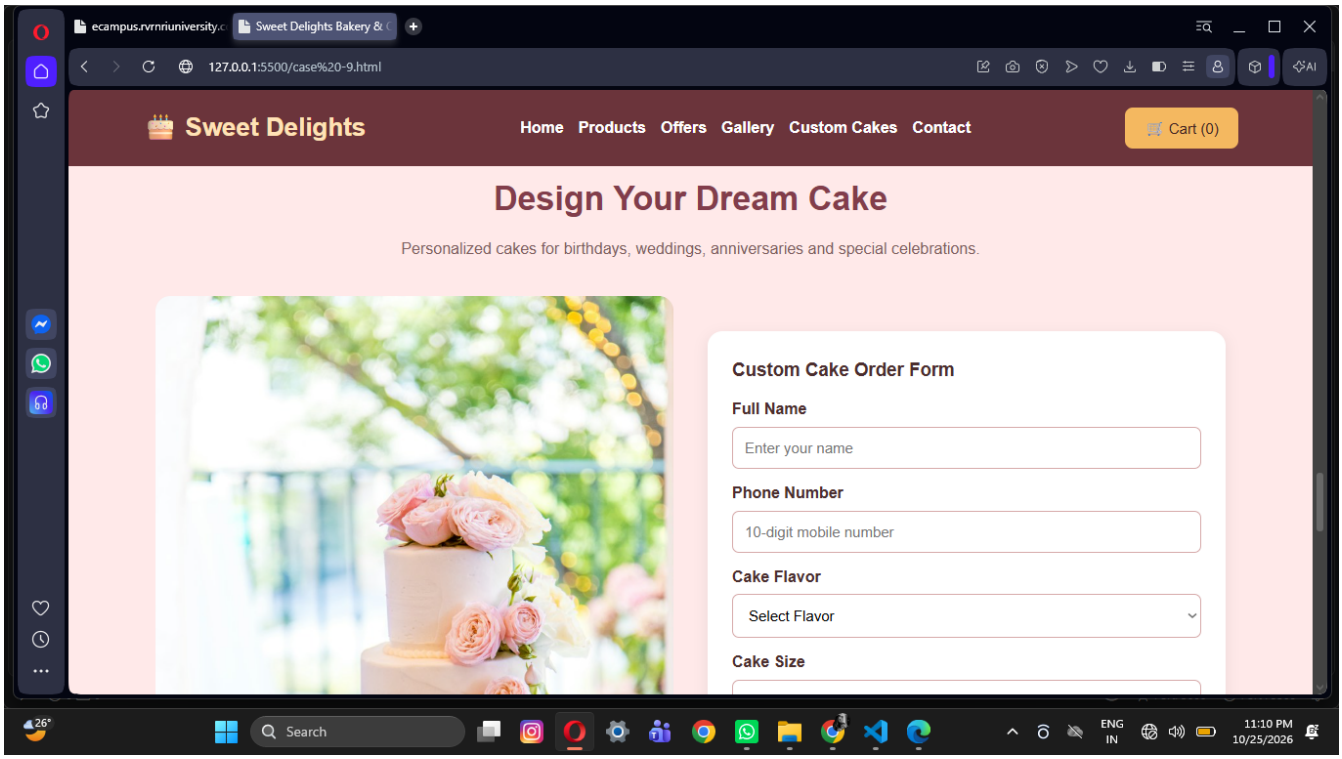

Bakery gallery

Presents photographs of cakes, pastries, cookies, and cupcakes in a grid layout.

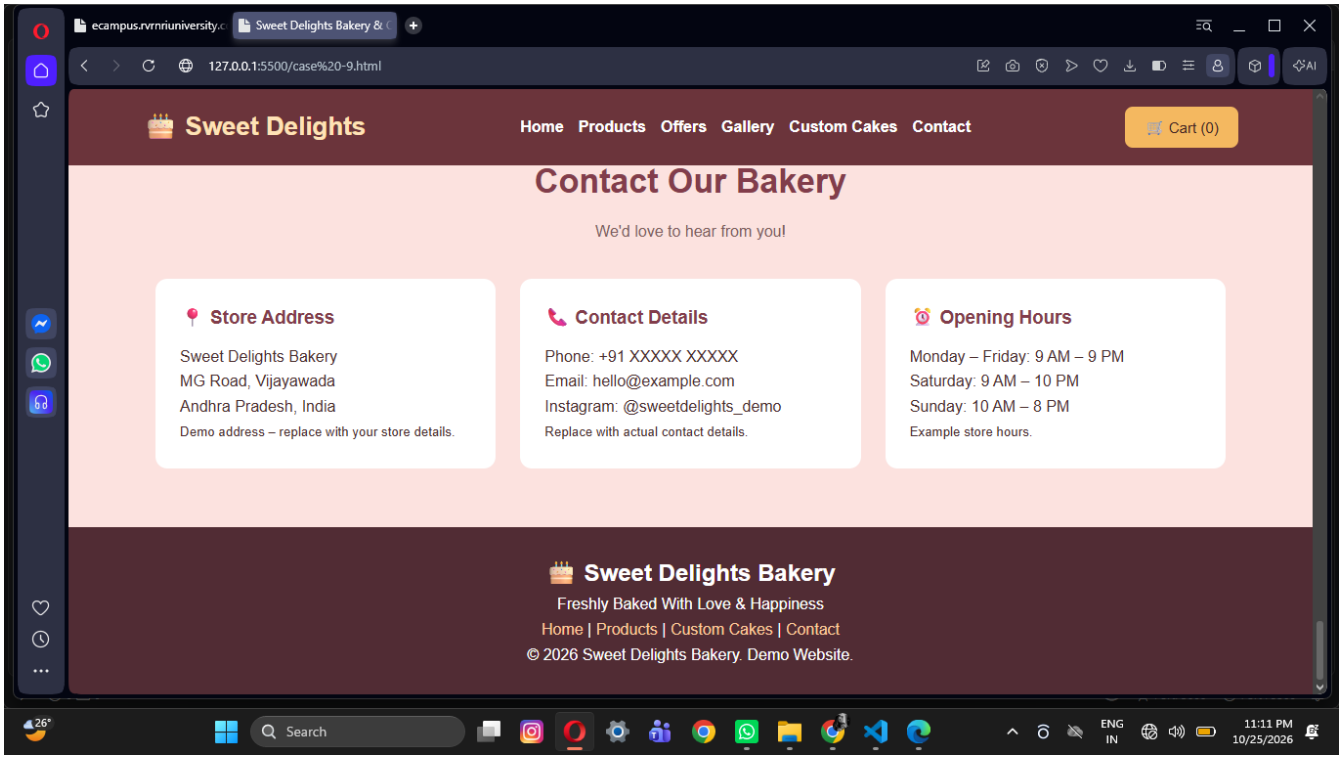

Custom cake orders

Provides a personalized cake order form with customer details, flavors, and sizes.

Contact and footer

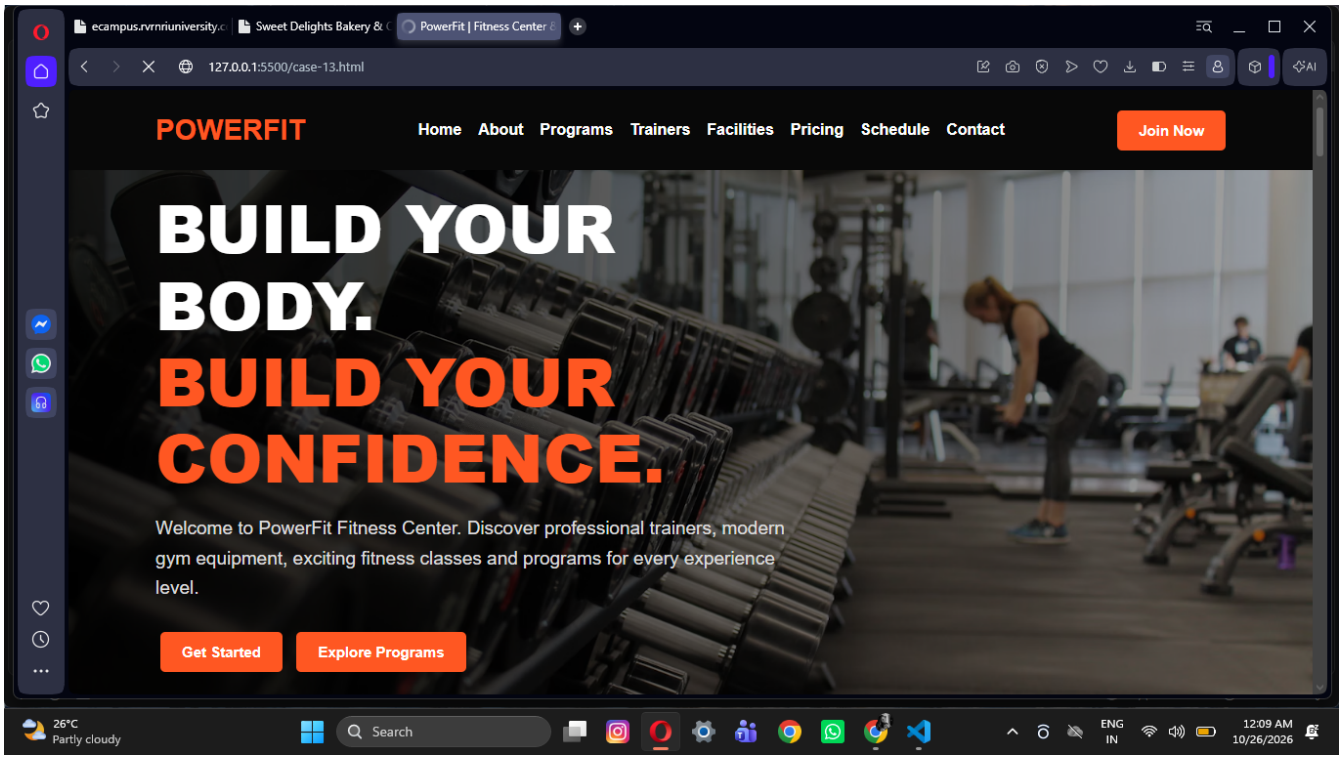

Shows sample contact information, store hours, address, and website footer.

PowerFit Fitness Center Website

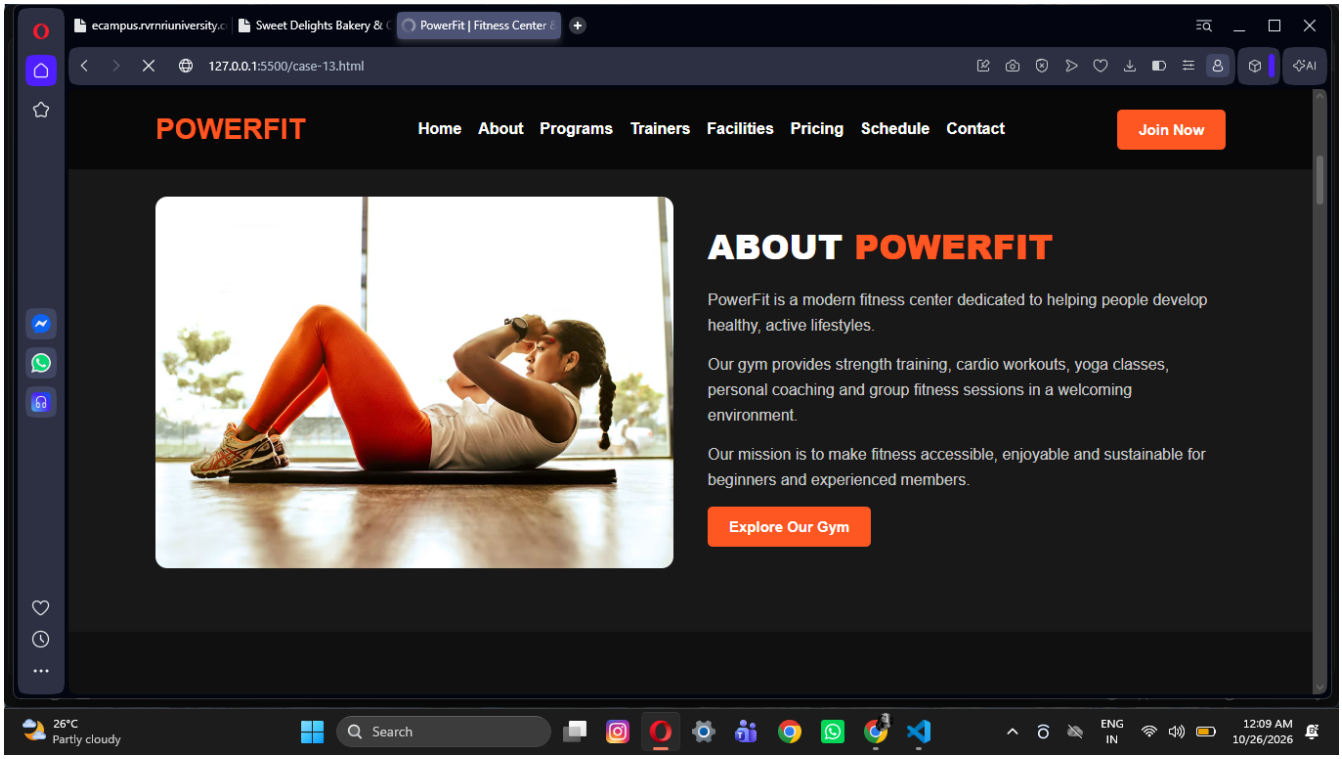

Fitness homepage

Introduces the gym through a bold banner, navigation, and calls to explore programs or join.

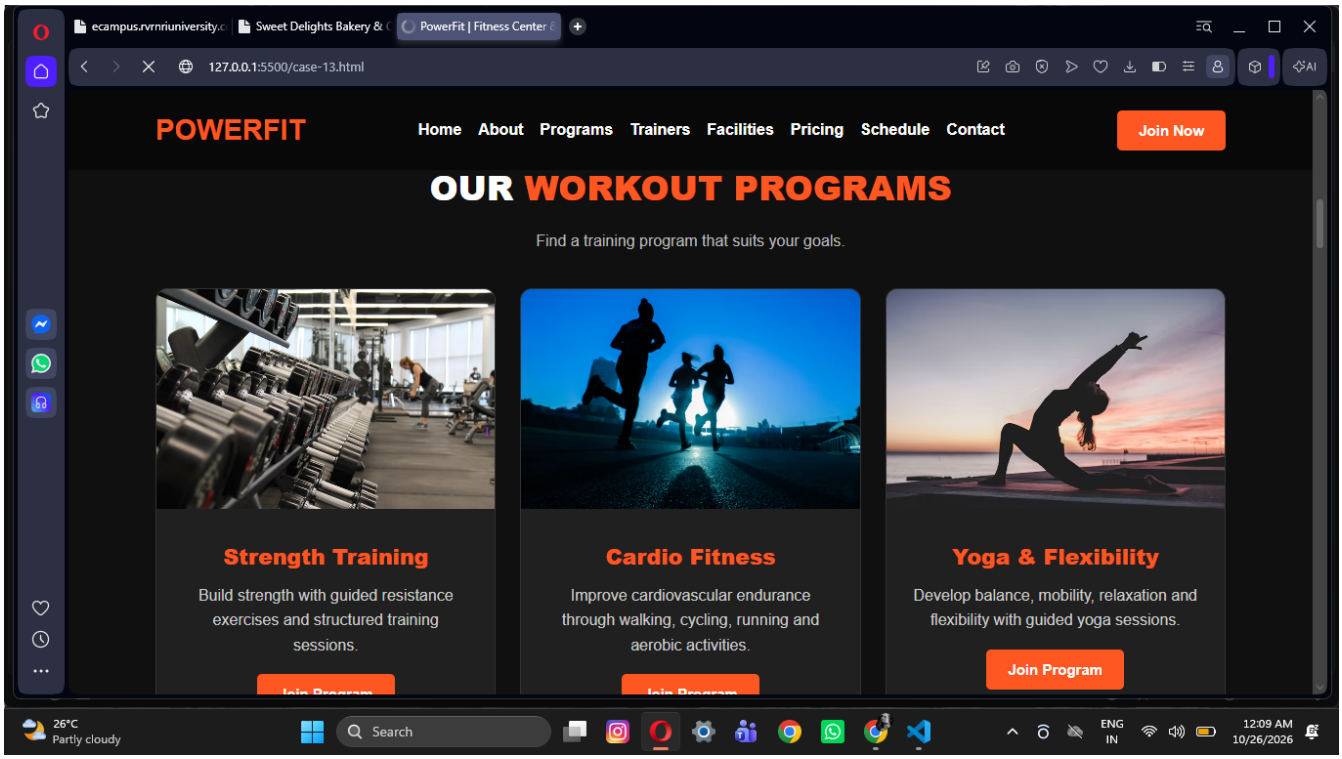

About PowerFit

Explains the fitness center’s mission, facilities, and training options.

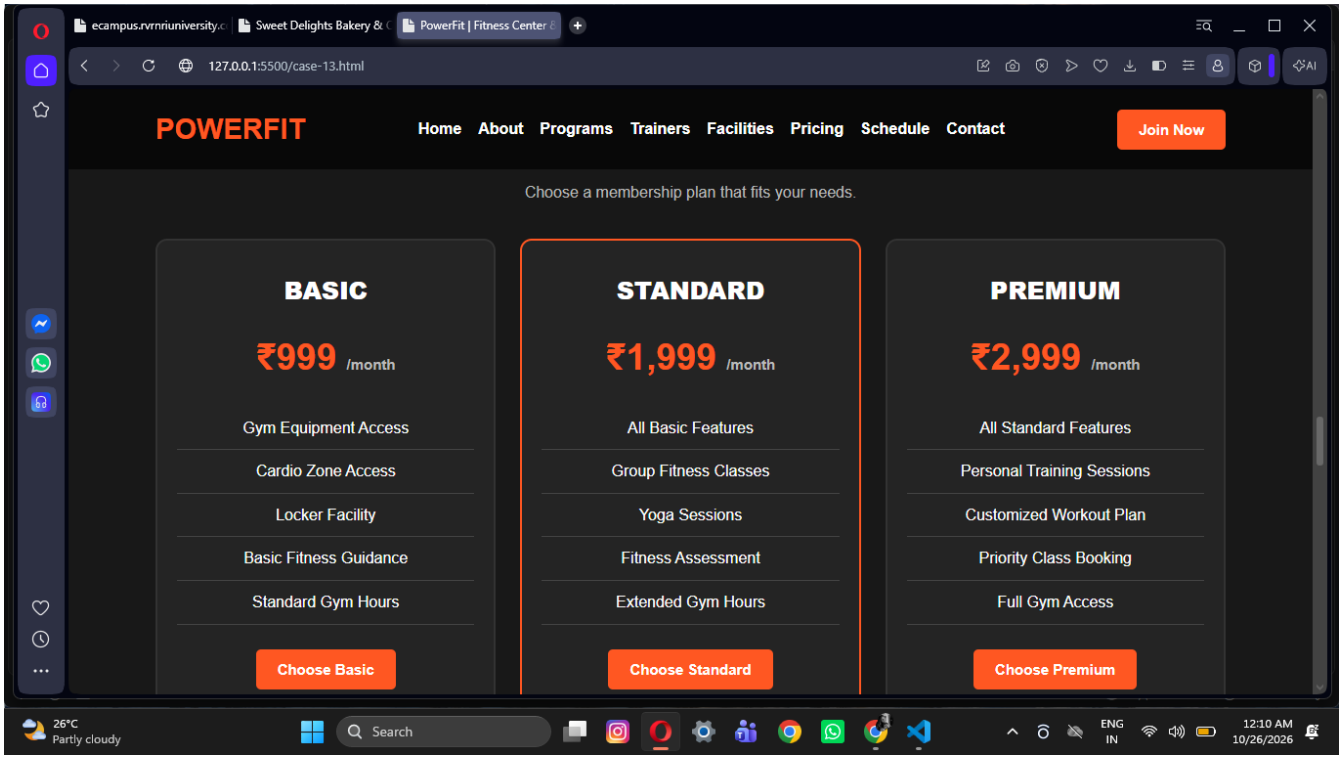

Workout programs

Highlights strength training, cardio fitness, and yoga with image-based cards.

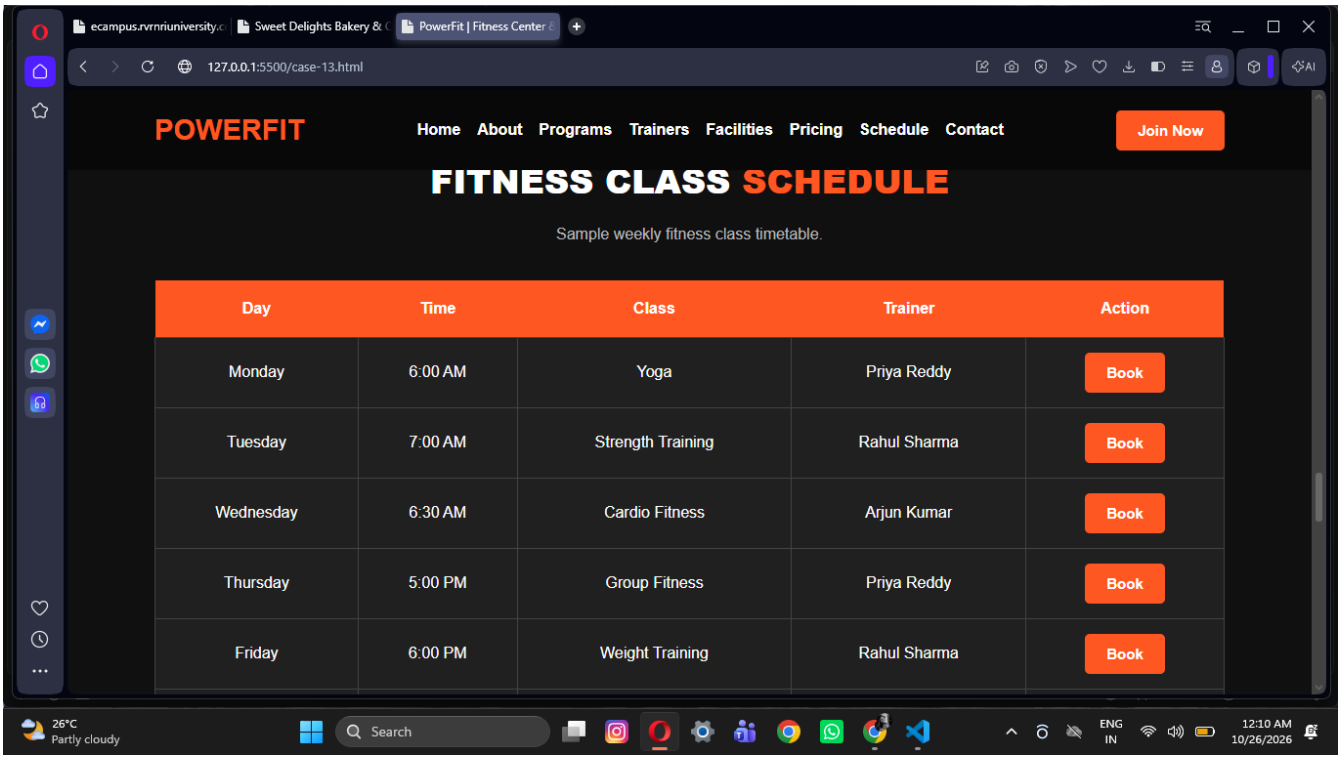

Membership plans

Compares Basic, Standard, and Premium plans with monthly prices and included benefits.

Class schedule

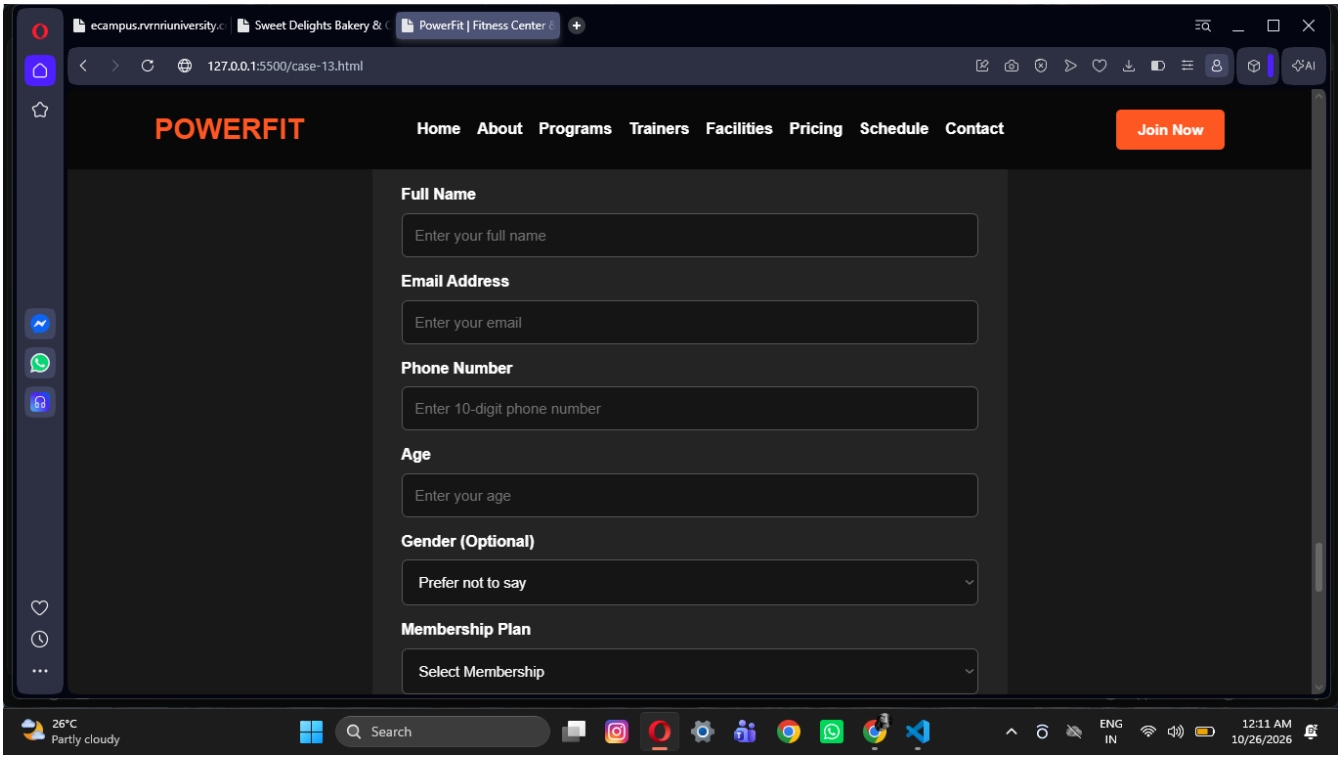

Displays a weekly class timetable with trainers and booking buttons.

PowerFit and TravelEase: Forms and Booking

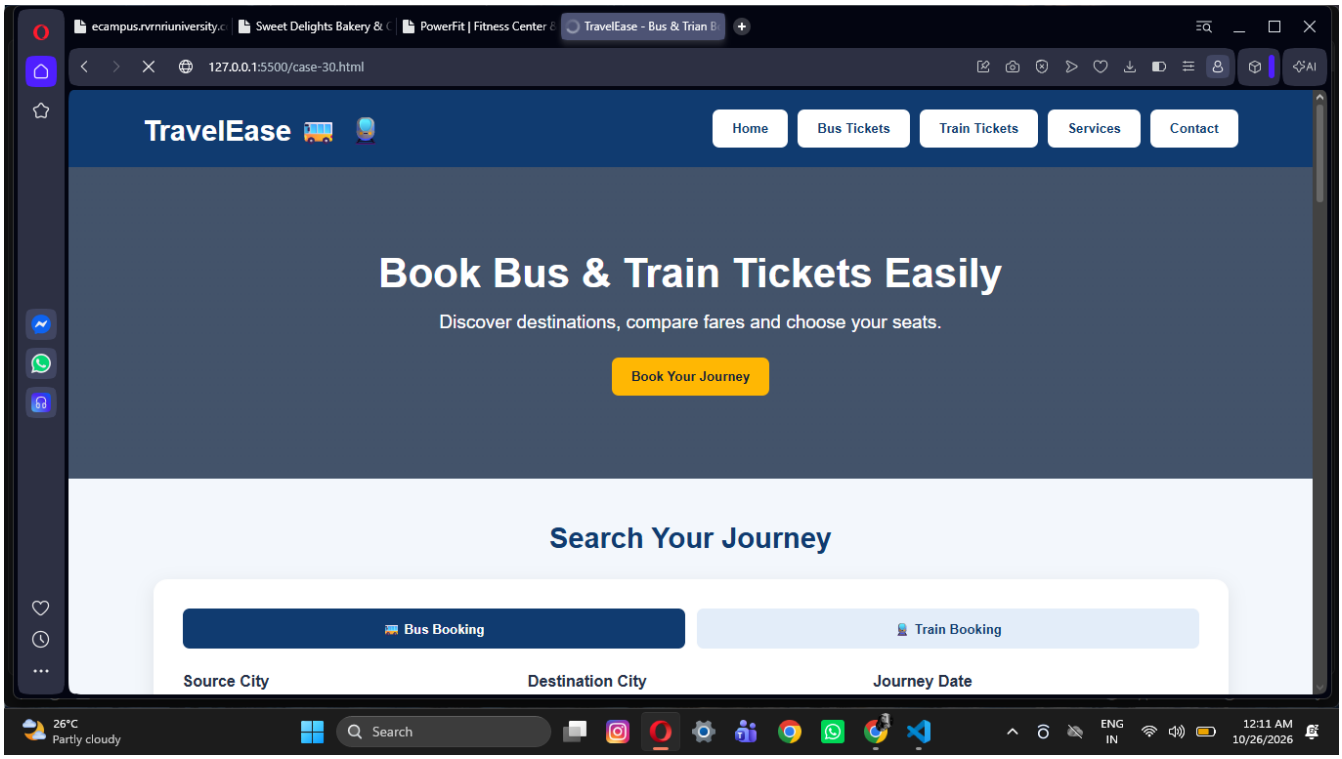

Gym registration

Collects member information and membership-plan selection in an online registration form.

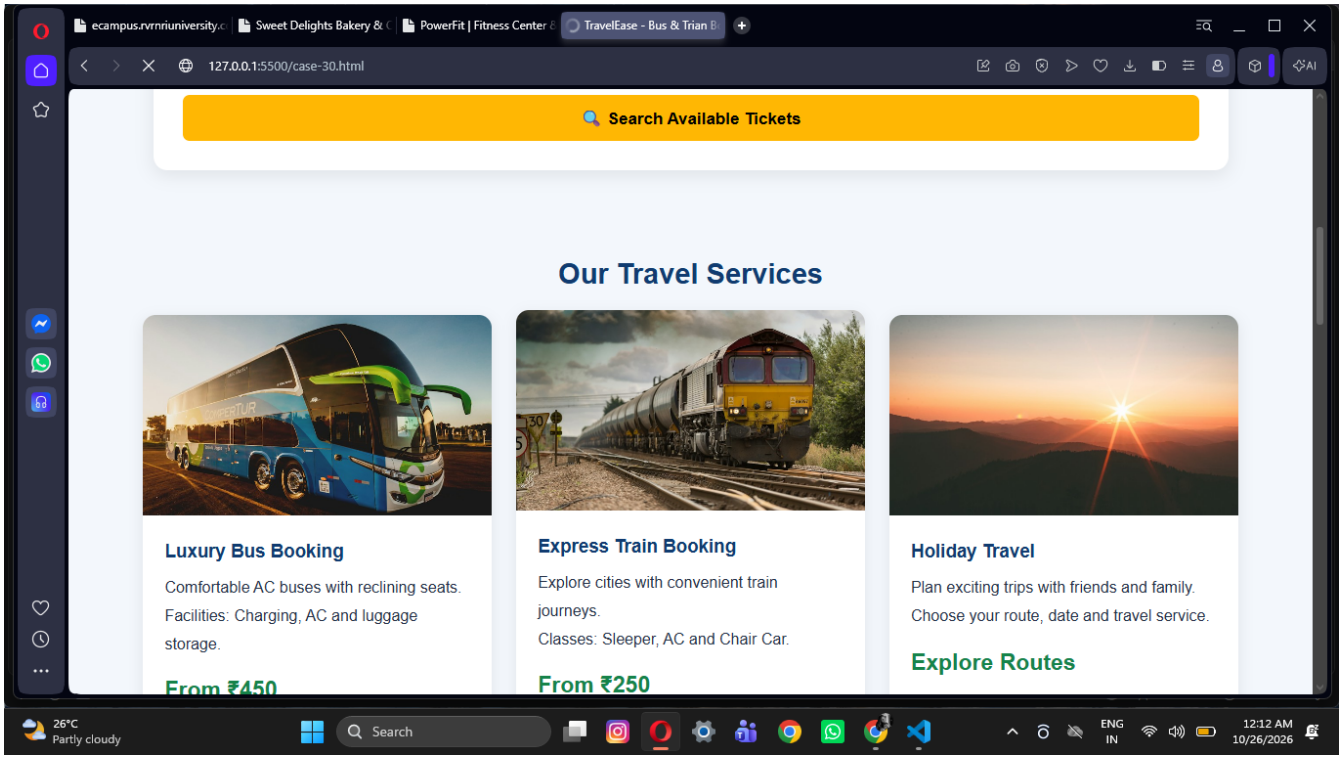

TravelEase homepage

Introduces bus and train ticket booking, route search, and journey planning.

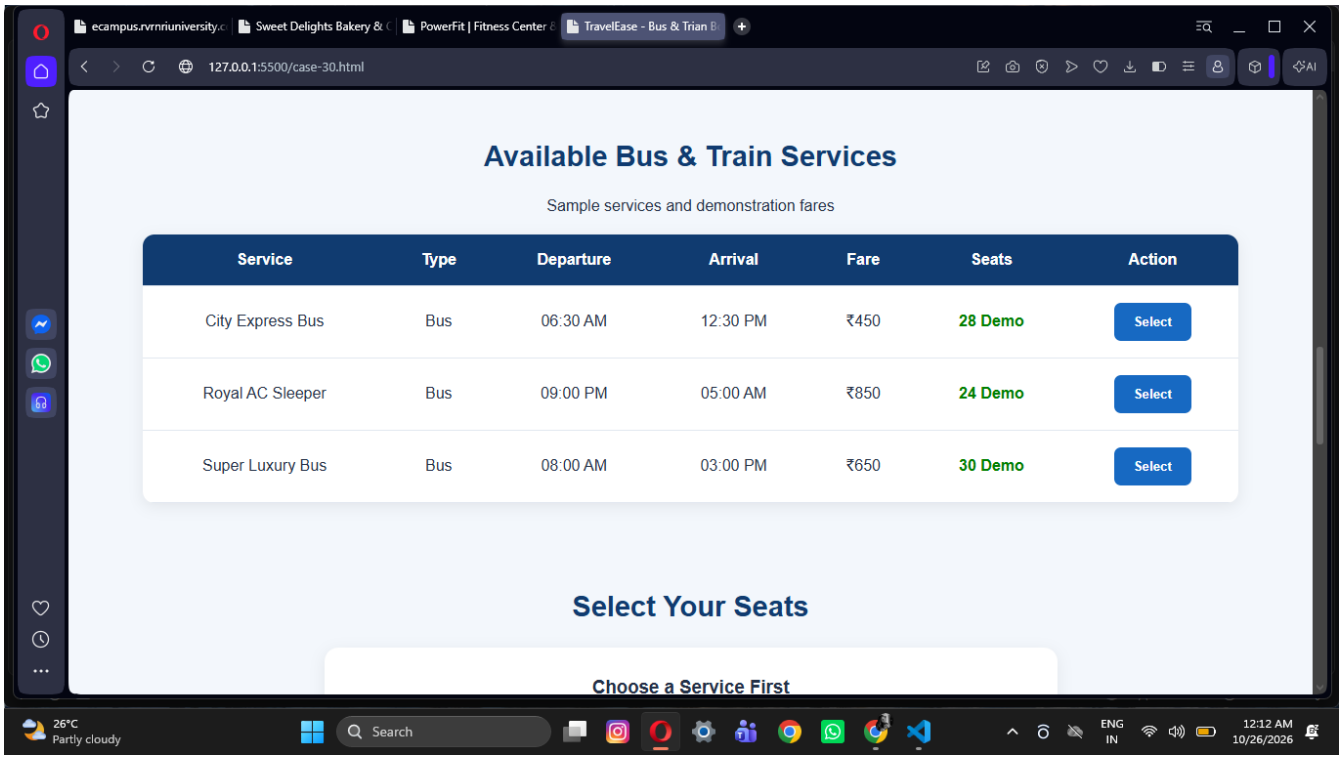

Travel services

Shows bus, train, and holiday travel service cards with example starting fares.

Service availability

Lists sample services, fares, departure times, seat counts, and selection controls.

Booking and benefits

Provides contact fields, a booking summary, confirmation control, and key booking benefits.
